

Suggested Wording to cut and paste in your email to Minister of Health Elliott and to your local MPP

Email Subject: Bill 138 and the need for Procedural Fairness

As an independent health facility (IHF) owner, I want to express my concerns regarding the statutory amendments contained in Bill 138. I believe that the proposed audit and payment recovery powers contemplated under both the *Health Insurance Act* and the *Independent Health Facilities Act* deprive health care providers of their right to procedural fairness.

The roughly 1,000 community-based IHFs provide more than fifty per cent of all diagnostic imaging services in Ontario. IHF operators want a healthcare system that is fair and accountable. I hope you will work with the Independent Diagnostic Clinics Association, which represents IHFs, to ensure that fair and consistent payment and accountability practices are mandated and operationalized.
